CERTIFICATES

more than **30** certificates: [certificates link](#)

- Oracle Database Administration 2019 Certified Professional
- Java SE 17 Developer

SKILLS

- Front-End Development:**
- Figma, HTML, CSS, JAVASCRIPT, REACT, NextJs, Bootstrap
- Back-End Development:**
- python && Flask,
 - java && spring boot && Microservices (Eureka, Gateway...)
 - C# && ASP.NET && JavaScript && Express
- Desktop Development:** java && swing
- DevOps:** CI/CD, SDLC, Git (Git Flow), Docker, ...
- Testing:** Unit Testing (Mockito, Vitest), Integration Testing (MockMvc, WireMock), E2E Testing (RestAssured, Playwright)
- Programming languages:**
- C, C++, C#, PYTHON (NLP, Pandas...), JAVASCRIPT, ARDUINO, VISUAL BASIC, BASH, Java
- Database management:**
- MYSQL (SQL), ORACLE (SQL/PLSQL), SQL SERVER (SQL, tSQL), H2, MongoDB, PostgreSQL
 - Data engineering:**
- Data warehouse (medallion architecture), Power BI, Talend, ETL
- Big Data (HDFS, MapReduce, Pig, Hive...)
- AI:**
- Proficiency in Python for AI (libraries: Pandas, Scikit-learn, Joblib, etc.)
 - Design, training, and evaluation of the ai models (SVM, DT, BN, NB, etc.)
- Principle of Software Engineering:**
- Data structures and algorithms:
 - Problem solving
 - SOLID Principles
 - Conception (UML/Merice)
 - project management (Scrum/jira)

LANGUAGES

English : **c1** French: **B2** Arabic: **c2**

HOBBIES

- Technological exploration, artistic creativity
- Outdoor activities, Online community, leadership
- Montage vidéo

MAJJID AYOUB

Entrepreneur | Java Software Factory
Engineer ERP Solutions

Profile

- Final-year software engineering student and former tech lead at INTELLCAP, specialized in microservices, DevOps, and system design. Experienced in technical leadership and delivering scalable solutions; currently serving as a Digital Transformation Lead for the Support Center at **Capgemini**.

Education

- October 2021- Present** Moroccan School of Engineering Sciences (EMS):
Computer and Network Engineering Engineer - 2021 to 2026
- October 2020-2021** Chkail School Group (AIN ATIQ)
Baccalaureate in Experimental Sciences - Physical Sciences Option

Professional experiences

Entrepreneurship && Freelance

- INTELLCAP SARL MOROCCO - December 2024-March 2026**
 - Location:** Rabat, Morocco
 - Position:** Tech Lead | Entrepreneur | Recruiter
 - Missions :**
 - Management of innovation projects (Web, AI, Data, Quantum)
 - Recruitment Manager: +70 recruitments, +1500 internship applications processed.
 - Supervision of student projects in several technological fields.

internships: [source](#)

- Capgemini — Digital Transformation Lead for the Support Center intern (PFE 5th year) March 2026 – Present (since March 5, 2026)** [Linkedin](#)
 - Subject:** Mid-level architect role focused on the design, planning, development, testing, documentation, and deployment of enterprise-grade full-stack and service-oriented architecture (SOA) solutions, working across frontend and backend systems, with emphasis on scalable microservices design, secure authentication/authorization, and production-ready delivery pipelines using modern DevOps practices.
 - Technologies:** Next.js (Full Stack), Java Spring Boot, Microservices, Service-Oriented Architecture (SOA), PostgreSQL, Docker, Nginx, Linux, CI/CD, Grafana, Prometheus, UML, RBAC, JWT, testing
- Software Engineer Intern (SFA 4th year) – INTELLCAP SARL | Jun 2025 – Aug 2025 (2 months)** [Linkedin](#)
 - Subject :** Leading a team of 17 people to design and develop a large-scale internal ERP system for INTELLCAP SARL, aimed at automating and centralizing all internal operations – from recruitment to project management – based on a modular and scalable architecture
 - Technology:** Microservices, Systems Design, AI Integration, DevOps, Cloud, Agile
- Software Engineer Intern (SFA 3rd year) – CNIPE | Jul 2024 – Sep 2024 (3 months)** [Linkedin](#)
 - Subject:** Development of a MOOC platform:
 - Technologie :** Front-end(**html,css,javascript**) back-end(**Flask , MongoDB**)
- Software Engineer Intern (SFA 3rd year) Morocco Post (Barid Al Maghrib) – June 2024** [Linkedin](#)
 - Subject:** Creation of a unified system for the "Courier" and "Coles" interfaces:
 - Technologie :** Front-end(**html,css,javascript**) back-end(**Django , SQL Server**)

PERSONAL & ACADEMIC PROJECTS

- I have worked on over 42 projects, leveraging my development skills: [Projects](#)
- End of Year Project(PFA)–Data Warehouse & Sales Analysis(USA)** 3 months [Linkedin](#)
 - Subject:** Creation of a Data Warehouse according to the Medallion Architecture for the analysis of sales of an American company Integration with **Power BI**
 - Technologies:** **SQL Server, T-SQL, Power BI**
- Project: SPRING_CommerceFlow-MS – Microservices Ecosystem 2 months** [Linkedin](#)
 - Subject:**Development of a reactive microservices architecture using Spring Boot 3, Kafka, and Kubernetes, with full observability (Grafana, Loki, Prometheus) and CI/CD integration.
 - Technologies:** Spring Boot 3, Spring Cloud (Config, Gateway, Eureka), Kafka, Kubernetes, Docker, Grafana, Loki, Prometheus, CI/CD
